YOU ARE INVITED TO THE
ASCENSION TIMELINE/END OF CORONAVIRUS
MASS MEDITATION ON
APRIL 4TH AT 10:45 PM EDT

We will be doing this meditation in the exact moment of Jupiter-Pluto conjunction on April 4th which will be the first moment when a truly powerful energy of Age of Aquarius will hit the surface of the planet.

If we can reach the critical mass of 144,000 people doing this activation or even exceeding this, then we will create a massive healing chain reaction in the energy field worldwide.

Jupiter conjunct Pluto transit makes us focused and driven to succeed at what we are most passionate about in terms of Planetary Liberation and Ascension.

We can use this opportunity to create a portal through which we will unify our consciousness and trigger the process that will solidify the optimal Ascension timeline for the planet.

This activation helps the Light forces to ground the energy of Light on the surface of the planet to completely remove the coronavirus, to help removing all the fear this epidemic has created, to counteract all plans dark forces had with triggering this epidemic, and to help shifting the planetary evolution back into the most positive Ascension timeline that will lead us into the Age of Aquarius.

Scientific studies have confirmed positive effects of mass meditations and activations on human society, so each of you that will participate in this activation can actually help bringing the Age of Aquarius closer to us!

The guided meditation video, a link which converts the meditation start time to your location and more information about this meditation can be found at the following link:
